## Water Control: the patented system for your excellence...

Discover our exclusive Water Control, a unique innovation in the world of autoclaves. Optimized to reduce bulk and improve the performance of DC motors.

The Water Control adjusts the motor speed based on the amount of water required and operates with

or without an accumulation tank, preventing water hammer effects. The system ensures advanced safety through self-diagnosis, voltage monitoring with alerts for abnormal levels, dry run prevention, thermal limiter, and transducer alarm.

Available for 12-24 Volt electric pumps.

## AM 992I-992IR-994I+QDCE CHARACTERISTICS

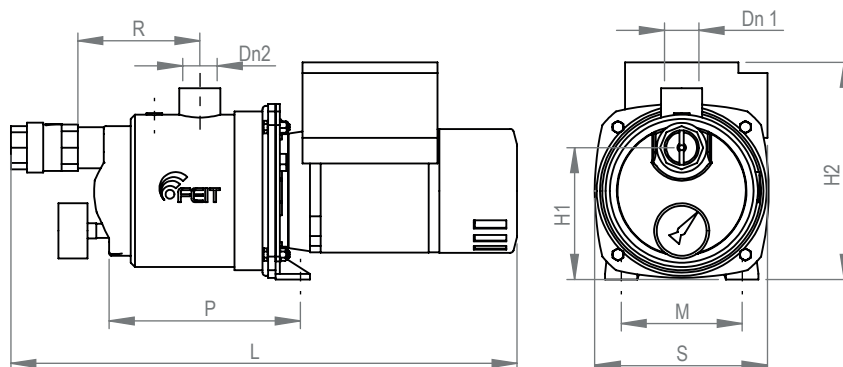

- **Body:** stainless steel
- **Impeller:** bronze
- **Shaft:** stainless steel
- **Screw:** stainless steel

- **Seal:** mechanical-ceramic-graphite-steel
- **Motor:** Volt 24 (QDCE 24) Volt 12 (QDCE 12)
- **Protection:** IP 55

## AM 990B-990BR-994B+QDCE CHARACTERISTICS

- **Body:** bronze
- **Impeller:** bronze
- **Shaft:** stainless steel
- **Screw:** stainless steel

- **Seal:** mechanical-ceramic-graphite-steel
- **Motor:** Volt 24 (QDCE 24) Volt 12 (QDCE 12)
- **Protection:** IP 55
